In case you didn't see the coverage over the weekend on the Gold King mine accident:

[http://www.denverpost.com/news/ci\\_28607200/animas-river-tests-show-water-acidic-coffee](http://www.denverpost.com/news/ci_28607200/animas-river-tests-show-water-acidic-coffee)

Attached is the notice Region 6 sent out to address private wells in the area, under the Superfund program.
